## EXPERIENCE

---

### **Logstrike, SDE Intern**

Mar 2025 - Jun 2025

- Developed and deployed a full-stack AI chip import e-commerce platform using Next.js, Firebase, and GCP, integrating Meilisearch for optimized search and Shiprocket API for order logistics and tracking.
- Utilized Google Cloud Platform (GCP) services like Firestore, Cloud Functions, and Custom Claims for seamless, scalable backend operations.

### **Infosys SpringBoard, Team Leader, Backend Development - Insurance Management System**

- Led a team of 7 interns to build a Django-based insurance management system, ensuring timely delivery and high-quality outcomes.
- Improved system reliability and performance by implementing automation scripts using Python.

## EDUCATION

---

Walchand Institute of Technology, Solapur

BTech • **Information Technology (Major), Electronics and Computer Engineering (Minor)** • 2022 - 2027

Walchand College of Arts and Science, Solapur

Higher Secondary Certificate (HSC) • 2020 - 2022

## LICENSES & CERTIFICATIONS

---

### **Django Certification Course**

Google Launchpad • 1717818168126 • Issued Jun 2024

### **Object Oriented Programming**

Infosys Springboard • Issued Mar 2024

### **Python Advanced Certification Course**

Google Launchpad • 1704189764866 • Issued Jan 2024

## SKILLS

---

Python • Java • AI/ML • Javascript • Next.js • React.js • Django • Flask • GitHub • Generative AI • Retrieval- Augmented Generation (RAG)

## HONORS & AWARDS

---

### **Nationwide Hackathon Winner**

SKN SINHGAD COLLEG OF ENGINEERING, KORTI, PANDHARPUR • Mar 2025

Built an award-winning low-bandwidth telemedicine platform tailored for rural healthcare, AI-based diagnostics (ECG, X-ray, retina, etc.), RAG-powered chatbot, multilingual voice assistance, offline chat (WebSockets), IVR emergency support.

### **Google Gemini API Developer Competition**

Google •

Developed an AI-powered app, Cookbook, using the Gemini API to enhance user experience. The event is part of the global competition for developers working with the Gemini API.

### **Infosys "AI in Action" National Competition**

Infosys • Oct 2024

Won a nationwide competition held at Infosys Bangalore DC. Worked on "Sowing Smarter: AI-powered Crop Classification," which used satellite data and machine learning to assist farmers

### **Problem Solving**

Successfully solved over 300+ **DSA problems** consistently using Java ,contest rating at **leetcode** 1463
